REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

newly cited reference (US 2003/0079528) by Wittliff does not suggest or disclose the claimed combination of system elements or method steps (as currently amended).

FIG. 1 of Wittliff shows an accelerometer attached to a motor and a computer for detecting a non-contributing cylinder within the engine. An examination of Fig. 1 of Wittliff (reproduced below) and its description -- when compared to the instant, claimed invention -- clearly provides the basis for the above statement.
